## THE HEINEMAN MERCANTILE CO.

EAST SIDE

GRAND RAPIDS, WIS.

#### Potato Growers' Meeting

The Wisconsin potato growers are holding their convention at the court house today, and a large number of growers are in attendance. The indications are that there will be a large crop of potatoes in Wisconsin this fall, and among other things the growers are discussing methods of marketing the crop in a manner that will bring them the largest return.

After doing business for years in a haphazard manner the potato growers have come to a realization of the fact that there is a science in the matter of marketing their product and that if they go about it in the proper manner there will be more money in it for them and at the same time the laborer will not cost the consumer any more than they have in years past. Hereafter they have been subject to all the uncertainty of a fluctuating market, which enabled speculators and others to make money out of their misfortune, and they expect in time to do away with these evils.

#### Helped to Cheer for Bryan.

Mrs. D. D. Conway, who was in Denver in attendance at the national convention, did her share toward cheering the enthusiasm. The following dispatch concerning the matter was published in the Free Press on Thursday:

Denver, Colorado, July 15th.—A Wisconsin woman Mrs. D. D. Conway, Grand Rapids, shared with a Colorado woman the honor of having started the wonderful demonstration in honor of Bryan in the convention this afternoon. The great cheer which greeted Senator Gore's eloquent tribute to the Nebraska had scarcely reached its height before the Denver woman dragged the pennant which marked the Colorado section from its fastenings and waved it high. Mrs. Conway quickly followed suit, and in a flash the lower floor of the auditorium was alive with waving banners. Mrs. Conway is one of the notable women of Denver tonight.

#### Charged With Robbery

Officer Garlick rounded up a man near the Northwestern depot on Tuesday afternoon who was suspected to be one of the parties who had stolen some money, checks and a quantity of merchandise from the store of Gettelle Joekes at Kellner. When the man was arrested it was found that he had three pairs of suspenders, a bunch of handkerchiefs and about \$2.50 in his possession. Word was sent to Joekes' place and Miss Bertha Joekes came in and positively identified the man as one who had been hanging about the place.

When the man was taken before Justice Fritzinger this morning he admitted that he and another man had stolen the goods and offered to return what he had in his possession and also a pocketbook that had been hid near Kellner, provided the charge was confined to one that would give him only a county jail sentence. This Mr. Joekes consented to do, and the party started for Kellner in charge of Sheriff Welch to unearth the stolen property.

Mr. Joekes reported that he lost three checks representing in value about thirty dollars and cash to the extent of twenty dollars.

#### Green Bay Here Sunday.

The Green Bay city team will be here on Sunday to play a game of baseball with the locals. Green Bay is said to have a good team, and if they have a good game may be looked for.

It has been pretty hard for Manager Porenboom to secure any teams this season that were strong enough to hold our boys down to a good game, the only one so far being Merrill. Merrill is situated about the same as we are; they have a good team and want them to play at home as much as possible, as there is nothing in going away for a game in amateur baseball.

#### Injured in a Runaway.

Mrs. Casper Kubiak of the west side was quite badly injured on Thursday by being thrown from a rig during a runaway. The injured woman in company with Mrs. John Kubiak had been in attendance at a funeral, and on their way home the horse took fright and ran away, throwing both ladies out. The injured woman was badly bruised about the face and hands, and had a large cut in her tongue, and has been confined to her bed ever since the accident.

#### LOW RATES EAST VIA THE NORTH WESTERN LINE.

Low Round-trip rates will be made from points on The North Western Line for the Prohibition National Convention, Columbus, Ohio, July 9th to 18th, E. Y. P. National Educational Association, Cleveland, Ohio, June 25th to July 1st, G. A. R. Encampment, Toledo, Ohio, August 21st to 30th and Knights of Pythias Conclave, Boston, Mass., July 31st to August 3rd.

For full particulars apply to agents, Oshkosh & North Western Rv.

V. A. Kleppine was before Justice Fritzinger this morning charged with selling liquor to Fred Porterville, a blacklisted man. Mr. Kleppine pleaded not guilty to the charge and the case was adjourned for one week.

P. Mulroy returned on Sunday from Duluth, where he had spent several days. While north Mr. Mulroy purchased a quarter interest in 160 acres of land on the Penokee range near Virginia, Minn. The property is some on which there are strong indications of iron ore.

#### What to Do with the Money.

When the average American gets more than thirty cents in his pocket he begins to get nervous and feel as if it were about time to go out and do something with the money. Of course there are exceptions to this rule, but the exceptions belong to the capitalist class and do not know how to have a good time anyway.

Now that the Fourth of July expenses are all paid and there was no attempt to make a six hundred dollar hole in the donations, there is quite a surplus left in the hands of the committee. While the committee has not lost any sleep about the matter, there are a number of people in the city who are racking their brains to find a method of disposing of what there is on hand.

One man suggests that we have a home coming, and use the money that has been raised as a sort of a start. He recently attended a home coming at his old home and says there was a great time. Lots of people, big doings, etc.

Another man wants to hold a band contest. Advertise the thing big, offer some good prizes and get a number of bands from the surrounding towns, and have a good time generally.

Three other men who donated \$2 apiece propose that the money be returned to the people who gave it. Several others want to get an airship for some future date, give the people of the surrounding towns a ride and send her up just as we were going to do on the Fourth.

There are several others who want to give the surplus to the baseball team, or the managers of the team to be expended as necessary in keeping up this sport.

Another man thinks that we ought to take the money and put some more with it and purchase a tract of ground where a race track could be constructed, which could be funded in and used for all kinds of athletic sports on such occasions as Fourth of July celebrations and other days of a like character.

There are certainly a number of methods in which the money might be spent, several of which have considerable merit.

#### Gaulke's Store Robbed.

Henry Gaulke's store on the east side was broken into on Thursday night and about fifty dollars in silver taken from the cash register. Kauten was gained by knocking out a window in the feed room in the rear of the building. A number of cigars and some candy were also taken, the value of the latter not amounting to much.

A few days after while cleaning out one of the rooms in Ed Krause's saloon a quantity of money amounting to about the same as Mr. Gaulke claimed he had lost, was found back of one of the radiators, and the money was turned over to Sheriff Welch for safe keeping.

Later the same day Mr. Gaulke received a letter thru the mail which stated that the money that had been taken from his store would be found in Krause's saloon back of the radiator in room No. 3, at the place where the money was previously discovered. The letter was signed "A Customer" which did not give any clue to the writer. The police have been looking into the matter but have been unable to find any clue as yet.

It is surmised that the money was taken by a boy or boys, who were discovered by their elders, and that this discovery was taken to return the money to Mr. Gaulke and at the same time avoid suspicion falling on the guilty parties.

#### Death of L. M. Schlatterer.

Word was received here on Saturday of the death of L. M. Schlatterer, which occurred on Saturday noon at Boulder, Colorado, where he went some time ago for the benefit of his health, his affliction being pulmonary tuberculosis.

The remains are expected to arrive here on the 6:30 train this afternoon and will be taken from the depot to St. Peter and Paul church, where they will lie until Thursday morning when the funeral will occur at 9 o'clock.

Mr. Schlatterer was a member of the Catholic Order of Foresters, the Elks, Knights of Columbus, and the Modern Woodmen of America.

Deceased was well known here, having come to the city as agent for the Chicago, Milwaukee & St. Paul Rv.

He afterward was in the employ of the Northern Paper Co. as bookkeeper, and later went with the Grand Rapids Pulp & Paper Co. at Biron, where he occupied the position of superintendent when he was taken with the malady that caused his death. Several months ago he became so much worse that he decided to go west, but it seems that he received no relief. The sorrowing family have the sympathy of all in their affliction. Besides the widow there are two children and an adopted daughter.

#### Put Under a Peace Bond.

Albert Stephan was on before Justice Fritzinger on Monday on complaint of Ernest Kaempher charged him with having threatened to shoot him. He was put under bonds to keep the peace for a term of six months, the bond being fixed at \$250.

#### For Sale.

—Top roll desk, sectional letter file, book cases, typewriter, 32 vols. Columbia cyclopedia, vols. Modern for. purchased a quarter interest in 160 acres of land on the Penokee range near Virginia, Minn. The property is some on which there are strong indications of iron ore.

—Louis A. Bauman.

#### Thought they were Burglarized

Last Saturday night when Mr. and Mrs. Joe Monlan returned home they found the door of their dwelling open and things about the house appeared as if they had had a visit from burglars. Looking about Mrs. Monlan discovered that her watch and chain were missing, and they immediately concluded that somebody had gone thru the house and the matter was so reported to the police. They also discovered that their two children, whom they had left at home alone, were up and dressed and some from the house. It was supposed that some person had entered the house, got the two children up and dressed them and sent them down town, while the burglar had gone thru the house at his leisure.

Later the watch and chain were found in the yard near the house, where the children had evidently taken them while playing. It is needless to state that Mr. and Mrs. Monlan were very glad to recover their property and find that the burglar theory was all a mistake.

#### Railroad Company Busy.

Last Friday the writer visited the Railroad Packing plant south of the city and found everything there running full blast, and Nic Rolland, manager of the business, reports that the company is having all it can do to tend to at the present time, and that they have not worked up the business as yet that they expect to later on, but it is increasing right along, and is fully as good as when they expected it would be.

The company has not had as good a water supply as they have wanted but are now engaged in sinking a pipe that will connect them with a number of springs near the plant, which when completed, they expect will give them an abundance of nice cool spring water. This will be quite an advantage to them, as the water they have been compelled to use was at times during the hot weather quite warm, and as they use a considerable quantity in the canisters of their ice machine, the fact of the water being warm has caused them considerable inconvenience.

The Rolland company has a very nice plant and there is little doubt but what in time they will have a large and lucrative business.

#### Will Build a Dam.

The contract to build a dam on the Monmouth about eighteen miles above Marinette has been awarded to Jacobson & DeGuerre of this city. There will be a dam and power house for the generation of electrical power, which will be conveyed in Monmouth and Marinette and used to operate the street car line between the two cities and also for other power purposes. It is reported that the new plant will develop in the neighborhood of seven thousand horsepower and will cost about half a million.

The local firm of architects had to compete with a number of others in the securing of the contract, so that their success in the matter is worthy of mention.

#### Lost Three Fingers.

Sam Spochter, who was employed at the Railroad Packing Company's plant, got his right hand caught in the gearing of the sawage machine on Thursday and three of the fingers were so badly crushed that they had to be amputated.

Mr. Spochter is a man twenty-four years of age and had been at work for the Railroad Packing Company only a short time, having recently arrived from the old country, and is a nephew of Harry Weisberg. Dr. Pomathville fixed up the injured man.

#### Gets Eighteen Months.

Albert Siebert appeared before Judge Webb on day last week and pleaded guilty to the charge of robbery and received a sentence of a year and a half in the state prison.

Siebert was the fellow who assisted in holding up a man on the St. Paul track one evening and was later arrested at his home in Neenah by Sheriff Welch.

#### A Year in Waupun.

Michael Stankovitch, the Russian who tried to choke his companion while on their way home to Biron on Sunday morning, last week pleaded guilty to the charge of assault with intent to do great bodily harm, and was given one year at hard labor by Judge Webb.

The two men were chums and had been to town that morning to attend church when Stankovitch tackled his companion and attempted to choke him with a piece of rope which he had in his pocket, presumably for the purpose of robbing him.

#### Big Verdict Against the Central

In the circuit court at Waupun on Thursday a jury gave Henry Hendrickson a verdict for \$12,000 against the Wisconsin Central. Hendrickson had a foot taken off by a Central freight train in the greatest verdict that city. This is the largest verdict for damages ever awarded in Waupun county. Goggin, Brazeau & Briere of this city were attorneys for the plaintiff in this case.

#### Circuit Court Monday.

Circuit court will open in this city on Monday July 20th, to again take the cases on the calendar where they were left off during the May session.

Judge Webb is in Waupun this week where court is being held.

#### For Clerk of Court.

I hereby announce my candidacy for the office of clerk of court before the Republican primaries to be held in September.

Bert Bover.

#### Got Thirty Days.

George Paterek was before Justice Fritzinger on Monday charged with having furnished liquor to Fred Porterville, who was on the blacklist. The judge found him guilty of the crime and in default of payment of a fine was given thirty days in the county jail.

It seems that Porterville went into Shadkowsky's saloon and called for a glass of beer, but was refused on the ground that he was on the blacklist. Then Paterek called for a glass of beer and paid for it and drank it. The saloon keeper complained of the matter to the others and the offender was arrested and fined as noted above.

People who frequent saloons should make a note of the fact that they have no more right to give liquor to a blacklisted man than has a saloon keeper, and if they do so they run the chance of a fine or imprisonment, as the case above cited. If a man is such an excessive user of alcoholic liquors that his relatives resort to the expedient of having him placed on the blacklist, his friends should exert themselves to keep him from drinking, rather than to encourage him in dissipation.

#### GOVERNMENT LAND OPENING

TRIPP COUNTY, N. D.

The Government opening of Tripp Co. lands will probably occur about October 1st, when a million acres will be thrown open to settlement, including some of the finest agricultural lands in the West. The Railroad extension of the Chicago & North Western Rv. is a real way line to these lands. See that your tickets read "Ballou," the terminus of the North Western, a half-mile from the reservation border. United States Land office, Grand Rapids, Minn., is sending for free descriptive pamphlets giving all details about the land and how to secure a quarter section of it; from an application to any O. & N. W. ticket agent.

#### Game Was Easy.

The game of baseball between the locals and the Berlin team on Sunday proved to be a walkaway for the locals and there wasn't a time during the game when the visitors got more than a look in, the score being ten to two at the end of the game.

It had been raining off and on during the day and when the game started up it got down to business and rained in good shape, continuing most of the time, but the crowd stuck to the end and saw the thing out.

The Berlin pitcher seemed to be up in the air most of the time and had very little control over the ball, sending two men to first in the first inning on balls. This may have been because the ball was wet, which made it hard to handle. Then the infield gave him poor support, the whole game being more or less of a farce from beginning to end.

#### Death of James Keyes

Word was received here yesterday afternoon of the death of James Keyes at Stevens Point, where he had been receiving treatment in the tuberculosis sanitarium for some time past. The body arrived on the 10:22 (3. R. & W. train this morning.

Mr. Keyes has been a sufferer for a number of years past, and during that time has tried numerous physicians and consulted specialists, but without any permanent relief. He went to Milwaukee some time ago for treatment but failing to receive any relief he was taken to Stevens Point and placed in the sanitarium, but it was impossible to do anything for him.

He is survived by a widow and three children who have the sympathy of the community in their affliction.

#### Vaudeville Show Opens.

The Daily Theater opened with a vaudeville and moving picture show on Monday. The shows take about an hour and two are given during the evening. So far the attendance has been fair. Mr. Daly promises some good things for the public as soon as the show gets to running in good shape.

A. E. Gormer of Grandon spent yesterday and today in this city attending to some business matters and shaking hands with his numerous friends.

**Grand Rapids Boy Has Narrow Escape.**

Marshfield News:—If we knew of your man's name we would not mention it in print. Not because he requested us not to publish it but rather on account of his parents. And then this young man only attempted to do something that hundreds of others are doing every day. In his case came so near being taken home in a corpse we doubt not but what his experience still haunts him as it should the rest of his days. He came here from Grand Rapids to celebrate Fourth. The next morning, still early and tired he went to the Wisconsin Central depot and was on a freight train running at the rate of 25 miles an hour, passing the depot and still he, dazed by the noise and the sight of the car, halted on the "catching on" platform. He was on the platform of an empty truck and as he passed, a freight car body struck it. The force was great as to knock him off the car. The operator from the depot window saw him as he fell and afraid to look again turned his head expecting to see at a second glance a mangled remains under the wheels. But fate ruled differently. His escape from injury comes out of a thousand and he comes out with only a bruised hand. Later in the day he was seen at the depot and when he was asked to give his name and refused on the ground that he would not like to have his name known it, he was allowed to keep his identity a secret.

There does not seem to be much doing among the politicians in Winona County this summer. Usually woods are full of would-be holders by this time, but there seems to be a backwardness this year is truly remarkable. Maybe they are going to let the office seek the party who are going to run. Those tickets must have their nomination papers sized and filed by first of August, which is only six days distant now. Of course nomination papers can be gotten out at that time, but the man making them will have to go on the ticket as an independent candidate.

I have come to the conclusion that it is wrong. It is fair neither to me nor to my customer. It never has seemed right to pay our bills in advance of a year's time. We have given thought and study as to the best way to serve our friends, and we are here to serve our friends, and we are here to serve our friends, and we are here to serve our friends. Our aim always has been to give you the best service possible. We carry a large stock and it is impossible for us to do longer. We sell goods at present prices, and so we must sell.

Prices have changed, formerly wholesalers on four or even six months pay our bills in 30 days and paid promptly.

We want our customers and ourselves to do a cash business. We will continue to produce at highest prices because we know that you want to do on goods bot. Buying and selling to obtain reasonable prices. We will understand that this is not to the benefit of everyone trading with us.

We wish to show you the difference between the prices that we can afford to sell for.

**White Plague on the Decline.**  
Bovine tuberculosis is on the  
decline according to the report  
made at the annual meeting of the  
live stock sanitary board. This  
stock during the fiscal year 1906 of  
9,718 cattle tested 1,728 or 17.7  
per cent. were found to be affected.  
In 1907 of the 15,816 tested 1,231  
affected an average of 8.1 per  
cent. and this year of the 40,333 cattle to  
be tested 2,334 were found to be diseased  
an average of 5.8 per cent. The average  
for the three years is eight per  
cent. This shows that the cattle throughout  
the state are being freed of  
for tuberculosis, but that climatic  
shows that the disease is declining.  
Formerly only those cattle known  
to be diseased were tested, which  
accounts for the unusually high average  
in 1906. Grading according to  
the 1,236 herds contained this year  
were found to contain some 250  
animals, an average of 27.1 per cent.  
Officers were elected for the coming  
year as follows:  
President—George McKerraw, P.  
Vice-president—George Wyllie, M.  
Secretary—John M. True, Barab.

When a woman won't be won—  
and the reason she won't be won—

The use of make-up is increasing  
in the practice of medicine, and its  
price is soaring upward rapidly.

An Englishman has discovered a  
new illuminating gas. Perhaps it will  
throw some light upon those English  
foes.

Prof. Redlich of Vienna university,  
who has accepted an invitation to lec-  
ture at Harvard next spring, will not  
speak in American.

At present the "kiss," if we mistake  
not, hold the record for fast open-  
ing, but the "kiss" has aspirations in  
the same direction.

A story is told of a Connecticut  
rancher that chews tobacco and  
expects to be like a man. Evidently  
the nature fakers are dying hard.

If Perry is so certain he could find  
the pole for \$25,000, he ought to have  
no trouble at all in purchasing the  
subsequent lecture trip for the money.

The French academy, when full, con-  
tains 40 "immortals." Two of them,  
Ludovic Halévy and Francis Coppin,  
have lately proved their mortality by  
dying.

We congratulate San Francisco on  
having a new date. Until now it has  
been "since the earthquake." Now  
it will be "since the coming of  
this fleet."

Thousands of years hence, when  
scientists are looking for relics of  
prehistoric man, probably they will  
come across several ancient automo-  
biles in Siberia.

Persons whose incomes do not keep  
pace with their aspirations will be  
glad to learn that it is quite correct  
now to wear topaz, if they prefer  
them to diamonds.

Woman suffrage in Finland is said  
by a male scientist to have increased  
insanity in that country. We expect  
to see this statement amply disputed,  
not to say left out and cold.

A celebrated doctor says that the  
sun is not bad for blondes, as has  
been reported. Did the doctor never  
see a blonde complexion that had  
evidently been left out in the sun?

The Kalamazoo man who was struck  
by lightning three times must prove a  
great source of embarrassment to  
those politicians who have held their  
lightning rods for a long time without  
getting results.

Germany thinks it is entitled to a  
two-cent postage with the United  
States if Great Britain is. The cost  
of transmitting letters written in Ger-  
man is no greater than that of send-  
ing messages expressed in shorter  
words.

At last Homer has met his only real  
rival. The "seven cities" which eluded  
the blind bard are outnumbered by  
the municipalities which claim the  
author of "Casey at the Bat." The  
love for really great poetry has not  
decreased.

American men, according to a dis-  
affected continental husband of an  
American girl, are slaves to their  
wives' slightest whims. As yet, how-  
ever, we have heard of no movement  
for the emancipation of downtrodden  
American men. The trouble with  
them is that they glory in their  
slavery.

Those new words that have been  
written to the tune of "Dixie" re-  
present a total waste of time and labor  
on the part of the author, as might  
have been expected. Nobody wants  
them. Does anybody suppose that a  
new version of "Home, Sweet Home,"  
ever could supplant the commonplace  
but immortal song known by that  
name?

Leon Delagrangé, the French aero-  
planeist, who has just driven his flying  
machine more than six miles at Rome,  
wishes the king and queen of Italy  
to see his machine. His machine now  
needs only a few minor improvements  
to solve the problem of dirigible flight.  
We have an idea that he will find that  
making these few minor improvements  
is like putting on the finishing touches  
to make a perfect poem.

When the question of relinquishing  
to Turkey some forts on the Midean  
coast was under discussion, the late  
Lord Salisbury wrote to Lord Cromer  
privately: "I would not be too much  
impressed by the fact that the British  
toll for about the strategic importance  
of these places. It is their way. If  
they were allowed full scope, they  
could insist on the importance of gar-  
risoning the moon, in order to protect  
us from Mars." That was written be-  
fore the beginning of the more or less  
probable current with a view to the  
stability of the next outside neigh-  
bor of the earth.

Long ago Defoe reminded his country-  
men, in "The True-Born English-  
man," that the Englishman is com-  
pounded of many races. This compound  
is more complex in this country than  
in any other, and we have high hopes  
of the mixture. In a Wisconsin town,  
named Roosevelt, which is Dutch, of  
ficers elected were—if reporters and  
telegraphers erred not—Strzelowiec,  
Clichecki, Szalaj, Zerkowicz, Swietlik,  
Orzechowski, Kozlowski, Porzanski, Or-  
zechowski, Lemanski and Walter  
Tybor. Possibly, suggests Youth's Com-  
panion, "Tybor is a misprint for Tylov."

The present liberal parliament has  
been in existence long enough for the  
London cabinet to learn that it is dif-  
ferent from its predecessors. An of-  
ficer of the house of commons said  
the other day that ten years ago the  
yard of the parliament building was  
filled with very bright white cars for  
a fare. Nowadays cabs are scarce,  
and the motor-cabs do not wait about  
the building at all. Many members  
ride on the public "buses" or the un-  
derground railroad, and save their  
money; they regard a cab fare as an  
unnecessary expense.

The production of lumber, lath and  
shingles in the United States in 1906  
was 27,490,007 thousand feet board  
measure, against 30,002,961 in 1905,  
and 34,127,165 in 1904. The figures  
cover the returns from 2,077 mills in  
1904, 11,665 in 1905 and 15,277 in 1906.

A tramp in Indiana buried a rat in  
a flower pot, leaving its tail protrud-  
ing, and sold it to a farmer's wife  
as a "rare plant" for 60 cents. This  
is an extremely old anecdote, but in  
certain portions of Indiana they  
don't seem to have heard of it.

## BRYAN AND KERN IS DEMOCRATIC TICKET

### Delegates to the Denver Convention Complete Their Task

Scenes of Tremendous Enthusiasm When Name of Ne-  
braska Is Presented—John Worth Kern of  
Indiana Choice for Vice-President.

Denver, Col.—In the early morning  
hours of Friday, William Jennings  
Bryan was nominated for the presi-  
dency by the Democratic national con-  
vention. Only one ballot was neces-  
sary, the Nebraska having an over-  
whelming majority of the votes.

Tired as they were, the delegates  
and spectators greeted the result of  
the ballot with roars of applause, and  
marched about the hall cheering and  
singing.

The nomination was made unani-  
mously.

The vote by states follows:

Clock is stopped.

Leading up to the nomination were  
hours that began with picturesque en-  
thusiasm, which grew into uncon-  
trollable disorder. The nominating  
speeches were made amid scenes akin  
to panic at certain stages.

At 12 o'clock midnight the conven-  
tion clock was stopped, so that con-  
structively the nomination of Bryan  
would take place at Thursday's ses-  
sion of the convention. Will the Fri-  
day mood be overcome by this tech-  
nical evasion? Is a question that was  
in the minds of enthusiastic Bryan  
Democrats, as they waited their way  
from the convention hall in the early  
morning hours.

Wild Scene of Confusion.  
A wilder demonstration than that  
over the first mention of Bryan's  
name on Wednesday followed the con-  
cluding word of the speech of Ignatius  
J. Dunn of Nebraska, which formally  
presented the name of Democracy's  
champion to the convention.

An hour and seven minutes, against  
the one hour and 28 minutes of the  
day before, marked the cheering and  
tumult, but the densely overcrowded  
auditorium made the confusion worse  
confounded.

Nobody had any respect for the  
rights of anybody else. Everybody  
was there to see the spectacle, if not  
to take part in it, and those not able  
to look out for themselves were  
trampled upon.

Johnson and Gray Named.  
Gov. John A. Johnson of Minnesota  
and Judge George Gray of Delaware  
were placed in nomination along with  
Bryan. Small as was the following  
of either, in comparison with that  
of the Nebraska, the scenes of con-  
fusion, owing to the uncontrollable  
size of the crowd, were approximately  
great.

Gov. Johnson was placed in nomina-  
tion by Winfield Scott Hammond of  
Minnesota, Connecticut yielding to the  
popular state.

Judge Gray's name was presented  
by Irving F. Handy of Delaware. Mr.  
Handy felt how sadly he was in the  
minority when, after he had talked  
awhile, the crowd attempted to choke  
him off.

Ovation for Johnson Speaker.  
It was a thing worth noting that  
by far the best nominating speech of  
the convention was made by Mr. Han-  
dy in presenting the name of Gov.  
Johnson. He had a hard task before  
him, because he followed not long  
after a characteristic Bryan demon-  
stration, lasting more than an hour.

In spite of this fact, the Minnesota  
orator succeeded in interesting the  
convention to a surprising degree, and  
it was made evident that if it were  
not for early pledges the Minnesota  
governor would surely have had an  
immensely larger following in the con-  
vention than he was able to show at  
that ballot.

As the speaker rapidly sketched the  
early life in poverty of Gov. Johnson  
and passed on to his political triumphs,  
when he was elected governor the first  
time in the face of 100,000 majority for  
Roosevelt, the thing seemed to catch  
the imagination of the delegates.

New Cartridge Belts Being Tested.  
Walking day and night, without a  
single stop, a dummy soldier is taking  
100,000 steps every 24 hours in an en-  
durance test to determine the life of  
several new cartridge belts which are  
under consideration by the board of  
ordnance and fortification of the ar-  
my.

The dummy's tour of duty is at  
the Rock Island (Ill.) arsenal. The  
dummy is the size of an average sol-  
dier. By a special mechanical appar-  
atus it is made to walk, with the guid-  
ance of a wire cable, as though on sun-  
dial duty, in a line of iron in actual use.  
The mechanism is such as to  
have the dummy the same motion as  
would be experienced by the average  
soldier in walking. About the waist  
of the figure are strapped the various  
belts, one at a time, which are being  
tested.

Would Further Tax Absinthe.  
To meet the deficit in the budget  
the French minister of finance sug-  
gests the doubling of absinthe. This  
taxing of the "green pest" will, it is  
thought, be popular; the minister an-  
ticipates that it will bring him in  
\$2,000,000.

The galleries took up the cry, so  
that at the conclusion of Mr. Ham-  
mond's rather brief but forcible speech  
a demonstration was set on foot which  
by careful nursing was made to last  
25 minutes, or about a third the time  
devoted to Mr. Bryan, whereas every-  
one knew that the Minnesota man  
would not have one-tenth as many  
votes as his Nebraska rival.

Seconding Speeches.  
Seconding speeches for Bryan were  
made by Senator George of Oregon,  
Gov. Glenn of South Carolina, and Gov.  
Claude Swanson of Virginia. Gov.  
Glenn's speech evoked much excite-  
ment, being devoted largely to a de-  
fense of Bryan against attacks brand-

ing him as a Socialist. At the con-  
clusion of his remarks, which were in  
accord with the spirit of the con-  
vention, the motion prevailed and Mr.  
James J. Thomas of Alabama  
and F. P. Lynch of Minnesota were  
named. Mr. Lynch's appointment was  
the first recognition the adherents of  
Gov. Johnson had received in the  
choice of convention committees.

Pending the report of the committee  
of inquiry, Thomas P. Ball of Texas  
was invited to address the convention.  
Mr. Ball called out cheering when  
he said it was a great pleasure to ad-  
dress such a notable "ratification con-  
vention," and declared Mr. Bryan  
would be nominated because the peo-  
ple of the states who sent their dele-  
gates to the convention wanted him  
nominated.

"In November next," said Chairman  
Clayton, "we will witness in New  
York the Tammany tiger drawing the  
Republican elephant. Therefore I  
invite to the stand, for a speech from  
a Democrat to a Democratic conven-  
tion, Senator Thomas F. Grady of New  
York."

Senator Grady was given a most en-  
thusiastic welcome as he appeared on  
the rostrum. When he declared that  
the convention could nominate no can-  
didate and adopt no platform that  
would not receive the united and en-  
thusiastic support of the New York  
democracy, he was given still greater  
applause and returned to his seat amid  
cries of "Grady," "Hurrah for Grady."

Chairman Clayton then introduced  
Judge L. J. Wade of Iowa, "a rep-  
resentative of the great corn state." Mr.  
Wade is the new national commit-  
tee man from Iowa.

Champ Clark Is Heard.  
"I am sure the convention will be  
glad to concur in the request of Mis-  
souri to hear from old Champ Clark  
of that state, one of the knightliest  
Democrats who ever drew glittering  
blade in defense of the party." It was  
in these words that Chairman Clayton  
introduced the next speaker, whose ap-  
pearance on the platform was a signal  
for great cheering.

Mr. Clark predicted that the Demo-  
crats would sweep the country from  
sea to sea, that on the fourth of March  
next a Democratic president would be  
inaugurated, backed by a Democratic  
house, and the people would then come  
into their rights.

"Democrats are getting together all  
over the land," he continued, "and the  
Republican party is presenting to the  
country the effect of a dissolving  
view. At Chicago Roosevelt forced on  
the convention a candidate for presi-  
dent that it did not want, and the con-

vention during the early session of the  
tumultuous record-breaking demon-  
stration of Wednesday.

The address of the permanent chair-  
man, Mr. Clayton, proved to be a caus-  
tic arraignment of the failure of  
Roosevelt policies and an enunciation  
of Democratic doctrine. The ringing  
voice of the orator and the emphasis  
of his gestures stirred the listening  
thousands to frequent demonstrations  
of enthusiastic approval.

At 2:30 o'clock the platform com-  
mittee was not yet prepared to report,  
and the convention took a recess until  
evening, so that all remaining differ-  
ences of detail on the platform could  
be reconciled and the document be  
ready for adoption and the presidential  
nomination be reached before the ad-  
journment of the night session.

It was 7:50 o'clock when Chairman  
Clayton began to say for order, which  
he secured within the minute.

Kerr Takes Guffey's Place.  
Mr. Clayton recognized Mr. Mc-  
Quisen of Pennsylvania, who an-  
nounced the selection of James Kerr  
as member of the national committee  
from that state in place of James M.  
Guffey, who was selected before the  
Pennsylvania contests were settled.

"Without objection the selection of  
Mr. Kerr will be considered as ratified,"  
said the chairman, and a moment  
later added: "The chair bears none,  
and the selection of Mr. Kerr is rat-  
ified." Cheering and a few hisses  
greeted the announcement.

Ollie James of Kentucky moved that  
the convention adjourn.

Indiana Secures the Honor.  
John W. Kern of That State Named  
for Vice-President.

Denver, Col.—The terrific strain of  
the all-night session caused the ma-  
jority of the delegates to sleep late  
Friday and the delegates were slow  
in gathering in the convention hall.

When the meeting was called to or-  
der at 7:40, the nomination of a can-  
didate for vice-president was at once  
proceeded with. Gov. Thomas of Colo-  
rado placed in nomination Charles A.  
Towne. John J. Walsh named Arch-  
ibald McNeill of Connecticut. Hill of  
Georgia urged the claims of Clark  
Howell for the position.

Thomas R. Marshall presented the  
name of John W. Kern of Indiana, and  
the convention enthusiastically took  
up the cheering which was started by  
the delegation from the Hoosier state.

Gov. Folk of Missouri seconded the  
nomination of Mr. Kern.

Hill of Georgia withdrew Howell's  
name and seconded the nomination of  
Mr. Kern.

Charles A. Towne also withdrew  
from the contest, and urged his friends  
to unite on Kern.

The withdrawals increased the vig-  
or of the demonstrations in favor of  
Kern, and on the motion that he be  
nominated by acclamation, which was  
carried, the cheering resembled closely  
the enthusiasm which had been ex-  
pressed at the nomination of Mr.  
Bryan the day before.

Wearied by the two tumultuous ses-  
sions, the delegates left the conven-  
tion hall and the great gathering was  
at an end.

Sketch of Kern's Career.  
John W. Kern was born in How-  
ard county, Indiana, December 20,  
1849. He graduated from the Uni-  
versity of Michigan in 1869 at the age  
of 20 years, with the degree of doc-  
tor of laws. His first official position  
which brought him into the public  
eye was when fulfilling his duties as  
a reporter of the supreme court of  
Indiana, which office he held from 1875  
to 1889. For four years—1892 to 1896  
—he was a state senator. He became  
city attorney of Indianapolis in 1897,  
and held that office for four years. A  
year before he gave up the office  
he ran for the gubernatorial chair in  
Indiana, and was beaten. Four years  
later, in 1904, he was elected to the  
gubernatorial office on the Democratic  
ticket, and was again defeated. Later he  
received the complimentary vote of the  
party for United States senator.

Mexican Oil Fields Burning.  
Washington.—The United States  
consul at Tampico, Mex., has reported  
that the oil fields between Tampico,  
on the Gulf of Mexico, and Tuxpan are  
burning and that the blaze is visible  
for a hundred miles on the gulf.

Bishop Potter on Way to Recovery.  
Cooperstown, N. Y.—Notwithstanding  
the intense heat, Bishop Henry C.  
Potter continued to improve Tuesday,  
and there is every reason to believe  
that he will recover now that the  
crisis of his malady has passed.

Wealthy Cattle Man Assassinated.  
Fine Blunt, Ark.—Albert McVay, a  
wealthy cattle dealer, was shot Sun-  
day night while sitting with his wife  
near a window of their home three  
miles from here. It is believed the  
shooting grew out of an old feud.

Farman Wins Aeroplane Prize.  
Paris.—Henry Farman Monday won  
the prize of \$2,000 for the first flight  
engaged for the first aeroplane flight  
which remained in the air 15 minutes. At  
Farman succeeded in remaining in the  
air for 20 minutes, 20 seconds.

Monarch's Life Heavily Insured.  
King Edward VII is the most heav-  
ily insured man alive. On the same  
principle, J. Pierpont Morgan's life  
was not long ago extensively insured  
at Lloyd's by a number of stock com-  
panies which were threatened with  
loss in the event of his death. This in-  
surance has since been allowed to  
lapse.

Of Two Evils.  
"Benedict's wife came for him at  
the club last night," said Galley.  
"Wasn't that humiliating?"  
"Well," replied Oswald, "I don't  
know whether it's worse for your wife  
to come for you at the club or for you  
to come for her at home from the  
club."—Philadelphia Record.

A Student of Caricature.  
"Did you enjoy your visit to Wash-  
ington while congress was in session?"  
"Yes," answered the young woman,  
"but I was a little disappointed to find  
that they didn't have their names  
printed on their collars and shirt-  
fronts, which were the chief of the pic-  
tures of them that I have seen pub-  
lished."

Island Made Naval Post.  
The British naval authorities have  
girdled the Isle of Wight with a tele-

less telegraph station, at Culver  
Cliff and other points having been put  
in direct communication with the sig-  
nal station at Portland dockyard.

Etiquette "A la Kansas."  
In reply to the question, "Please  
tell when and where are, or is, the cor-  
rect time for a gentleman to lift or  
remove his hat," we reply: Without  
consulting authorities of etiquette; in  
fact, giving it to you off-hand, so to  
speak, we should say at the following  
times and on the following occasions,  
respectively, when the hat should be  
lifted or removed, as circumstances in-  
dicate: When mopping the brow; when  
taking a bath; when eating; when  
going to bed; when taking up a col-  
lection; when having the hair trimmed;  
when being shampooed; when stand-  
ing on the head.—Wichita (Kan.) Bea-

State'smen's Ordeals.  
"People can't show too much care  
in selecting candidates for office," said  
the patriot.

"No," answered the unassuming citi-  
zen. "The difficulty is that before  
any man gets past a convention so  
many harsh things have been said  
about him by people in his own party  
that you can't help losing faith."

WITCHCOCK IS MADE CHIEF  
IS CHOSEN NATIONAL CHAIRMAN  
OF THE REPUBLICANS.

Vorys Put in Charge of Campaign in  
Ohio—George R. Sheldon of New  
York Elected Treasurer.

Hot Springs, Va.—Frank H. Hitch-  
cock of Massachusetts, chairman of  
the Republican national committee  
and manager of the national cam-  
paign; George R. Sheldon of New  
York, treasurer of the national com-  
mittee, and Arthur J. Vorys of Ohio,  
member of the national committee in  
charge of the Ohio Republican head-  
quarters, which are to be in Cin-  
cinnati. This was the result of the meet-  
ing of the executive committee of the  
Republican national committee here  
Wednesday.

All of the eight members of the ex-  
ecutive committee were present and  
their report was unanimous. The en-  
tire action of the committee was an  
approval of the recommendations of  
William H. Taft, the nominee of the  
Republican party for the presidency,  
who presided at the meeting.

The selection of Mr. Hitchcock as  
chairman was expected, as the pres-  
ence of all the factions of the party  
who would be likely to make a fight  
against his appointment had not devel-  
oped any purpose to oppose his selec-  
tion. He was known to be the choice  
of Mr. Taft, and several of those who  
had been called in consultation with  
Mr. Taft subordinated their personal  
preferences in deference to the wishes  
of the presidential nominee in the se-  
lection of the man who is to manage  
his campaign.

The designation of Mr. Vorys to be  
in charge of the national campaign in  
Ohio is regarded as a solution of the  
embarrassment arising from the selec-  
tion of Mr. Hitchcock in preference to  
Mr. Vorys. By this arrangement the  
campaign in Ohio will be in a sense  
separate from the rest of the country.  
Vorys will be accountable only to Mr.  
Taft.

It is stated that Mr. Sheldon's ap-  
pointment was upon the recommenda-  
tion of Mr. Cornelius M. Bliss, treas-  
urer of the committee since 1892. It  
is also stated that his selection has  
the approval of President Roosevelt,  
with whom he was a classmate at  
Harvard. Mr. Sheldon is a close per-  
sonal friend of Mr. Bliss, whose coun-  
sel will be at his command relating  
to campaign funds.

ANNA AND HELIE WEDDED.  
Mrs. Gould Becomes Wife of Prince  
De Sagan.

London.—Miss Anna Gould and  
Prince Helie de Sagan were married  
at a registry office in Henrietta street,  
off Covent Garden, Tuesday. A sub-  
sequent ceremony was conducted at  
the French Protestant church on Soho  
square.

The civil ceremony was simple. Out-  
side of Prince Helie, Mrs. Gould, the  
witnesses and the officials, no one was  
present. A great crowd, consisting  
largely of porters from the Covent  
Garden market, and employees of the  
publishing houses in the vicinity, as-  
sembled in the street outside. Prince  
Helie presided at the registry office, and  
with the registrar, establishing his  
two weeks' residence in the dis-  
trict, and the registrar granted his li-  
cense.

Shipwrecked Crew Rescued.  
Watertown, N. Y.—The two-masted  
schooner "Acacia," owned and cap-  
tained by William Simmons of Kings-  
ton, went ashore on Hull Rock point,  
near Sackett's Harbor, Wednesday  
and late in the afternoon the crew  
was rescued by S. Gibbs of Sackett's  
Harbor, who, after a struggle of sev-  
eral hours, managed to reach the  
stranded craft. The eight persons on  
board included two women.

Goulds May Be Reconciled.  
New York.—Reports that Frank J.  
Gould and his wife have become recon-  
ciled were circulated Wednesday fol-  
lowing the striking from the board  
of directors of an action entitled "Gould  
versus Gould."

Bloody Deed of an Insane Man.  
Bluefield, W. Va.—Suddenly going  
insane on a train at Bondtown, Va.,  
Wednesday, Dan Clowes of Bigstone  
Gap, Va., reached over to the seat in  
front of him and James Sturgill's  
throat from ear to ear.

Well-Known New Yorker Tries Suicide.
